## 1. Basis of presentation:

Correvio Pharma Corp. (the “Company” or “Correvio”) was incorporated on March 7, 2018 under the laws of the Canada Business Corporations Act as part of a court approved Plan of Arrangement (the “Arrangement”) to reorganize Cardiome Pharma Corp. (“Cardiome”). The Company’s head office is located at 1441 Creekside Drive, Vancouver, BC, V4S 4J7.

Pursuant to the Arrangement effective May 15, 2018, substantially all of the assets and liabilities of Cardiome excluding its Canadian business portfolio were transferred to Correvio and the shareholders of Cardiome received common shares, on a one-for-one basis, of Correvio. Immediately following the reorganization of Cardiome, Cipher Pharmaceuticals Inc. (“Cipher”) acquired the Canadian business portfolio of Cardiome on May 15, 2018 by way of the acquisition of all of the issued and outstanding common shares of Cardiome for an aggregate cash consideration in Canadian dollars (C\$) of C\$25,500. The Canadian income tax losses and other Canadian tax pools of Cardiome remained with Cardiome and were sold to Cipher. Cardiome’s management team and employees became employees of the Company and assumed the same positions they occupied in Cardiome. As a result of the Arrangement, the Company holds all of Cardiome’s pre-transaction assets and assumed liabilities, excluding the Canadian business portfolio acquired by Cipher effective May 15, 2018. In the second quarter of 2018, the Company recorded a gain of \$18,489, from its disposition of the Canadian business portfolio and the related tax balances.

The consolidated financial statements for all periods presented herein include the consolidated operations of Cardiome until May 15, 2018 and the operations of the Company thereafter. As a non-recurring related party transaction between companies under common control at the time of the Arrangement, the assets and liabilities were transferred at their carrying values using the continuity-of-interests method of accounting. For accounting purposes, the Company is considered to have continued Cardiome’s pharmaceutical business that was transferred; accordingly, these consolidated financial statements include the consolidated historical operations and changes in the consolidated financial position of Cardiome to May 15, 2018 and those of the Company thereafter. Reference in these consolidated financial statements to “the Company” refers to “Cardiome” prior to May 15, 2018.

Correvio (including its former parent Cardiome until May 15, 2018) is a specialty pharmaceutical company dedicated to offering patients and healthcare providers innovative therapeutic options that effectively and conveniently manage acute medical conditions to improve health and quality of life. Correvio strives to find innovative, differentiated medicines that provide therapeutic and economic value to patients, physicians and healthcare systems. Correvio currently has two marketed, in-hospital cardiology products, Brinavess® (vernakalant IV), for the rapid conversion of recent onset atrial fibrillation to sinus rhythm in adults, and Aggrastat® (tirofiban HCl), a reversible GP IIb/IIIa inhibitor indicated for use in patients with acute coronary syndrome, which are commercially available in markets outside of the United States. Correvio has licensed a European-approved antibiotic, Xydalba™ (dalbavancin), a second generation, semi-synthetic

---

## 1. Basis of presentation (continued):

lipoglycopeptide for the treatment of acute bacterial skin and skin structure infections in adults. Correvio has also licensed Zevtera<sup>®</sup>/Mabelio<sup>®</sup> (ceftobiprole medocaril sodium), a cephalosporin antibiotic for the treatment of community-acquired and hospital-acquired pneumonia. In addition, Correvio has also licensed commercialization rights to a pre-registration drug/device combination product, Trevyent<sup>®</sup>, for the treatment of pulmonary arterial hypertension in certain regions outside the United States and commercialization rights to cardiology products Esmocard<sup>®</sup> and Esmocard Lyo<sup>®</sup> (esmolol hydrochloride), a short-acting beta-blocker used to control rapid heart rate in a number of cardiovascular indications, in certain European countries.

As of March 31, 2019, the Company had \$15,962 in cash and cash equivalents, compared to \$15,596 at December 31, 2018. The Company has a history of incurring operating losses and negative cash flows from operations. Based on current projections, the Company may not have sufficient capital to fund its current planned operations during the twelve-month period subsequent to the issuance of these consolidated financial statements. The Company is dependent on its ability to raise additional debt or equity financing or monetize intellectual property rights through strategic partnerships or sublicensing arrangements and to meet revenue covenants in order to meet its current planned operations during the twelve-month period subsequent to the issuance of these consolidated financial statements. There can be no assurance that the Company will be able to raise such additional financing. These factors raise substantial doubt about the Company's ability to continue as a going concern within one year from the consolidated financial statements issuance date. The accompanying financial statements do not include any adjustments relating to the recoverability of assets and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

## 2. Summary of significant accounting policies:

The accounting policies and methods of computation applied by the Company in these interim consolidated financial statements are the same as those applied in the Company's annual financial statements as at and for the year ended December 31, 2018, except as described below.

On January 1, 2019, the Company adopted Accounting Standards Update No. ("ASU") 2016-02, "Leases", which requires lessees to recognize all leases, including operating leases, with a term greater than 12 months on the balance sheet, for the rights and obligations created by those leases. In July 2018, the FASB issued ASU 2018-11, "Leases", which offered a transition option where companies could elect to apply the guidance using a modified retrospective approach at the beginning of the year of adoption rather than to the earliest comparative period presented in the financial statements. The Company adopted the new leasing standard on January 1, 2019 using the modified retrospective approach and used the effective date as its date of initial application. A cumulative catch-up adjustment was not required on the date of adoption. The Company elected the package of practical expedients which permits the Company to not reassess under its prior conclusions about lease identification, lease classification and initial direct costs. For leases with

(Unaudited)

As at March 31, 2019 and December 31, 2018 and for the three months ended March 31, 2019 and 2018

---

## 2. Summary of significant accounting policies (continued):

an initial term of less than 12 months, the Company has elected not to recognize right-of-use assets and liabilities for any class of asset. The Company has elected a policy to account for lease and non-lease components as a single component for all asset classes. In general, the Company accounts for the underlying leased asset and applies a discount rate at the lease level. However, for vehicle leases, the Company utilizes the portfolio method by aggregating similar leased assets based on the underlying lease term (note 10).

## 3. Recent accounting pronouncements:

In January 2017, the FASB issued ASU 2017-04, "Simplifying the Test for Goodwill Impairment". ASU 2017-04 eliminates the need to determine the fair value of individual assets and liabilities of a reporting unit to measure the goodwill impairment. The goodwill impairment will now be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. The revised guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The Company is evaluating the revised guidance to determine whether there will be any impact on its consolidated financial statements.

## 4. Financial instruments:

Financial instruments consist of cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued liabilities, and long-term debt. The fair values of cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued liabilities approximate carrying values because of their short-term nature. The Company's long-term debt is recorded under the effective interest method (note 11). The fair value of long-term debt approximates its carrying value because there have been no significant changes in interest rates or the creditworthiness of the Company since the debt was last amended in March 2018. The long-term debt is classified as Level 2 of the fair value hierarchy.

The Company's financial instruments are exposed to certain financial risks, including credit risk and market risk.

### (a) Credit risk:

Credit risk is the risk of financial loss to the Company if a partner or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Company's cash and cash equivalents and accounts receivable. The carrying amount of the financial assets represents the maximum credit exposure.

The Company limits its exposure to credit risk on cash and cash equivalents by placing these financial instruments with high-credit quality financial institutions.

The Company is subject to credit risk related to its accounts receivable. The majority of the Company's accounts receivable arise from product sales which are primarily due from drug

---

## 4. Financial instruments (continued):

distributors and hospitals. The Company monitors the creditworthiness of its customers so that it can properly assess and respond to changes in their credit profile.

### (b) Market risk:

Market risk is the risk that changes in market prices, such as foreign currency exchange rates and interest rates will affect the Company's income or the value of the financial instruments held.

#### (i) Foreign currency risk:

Foreign currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk as a portion of the Company's cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, revenue, and operating expenses are denominated in other than U.S. dollars. The Company manages foreign currency risk by holding cash and cash equivalents in foreign currencies to support forecasted foreign currency cash outflows. The Company has not entered into any forward foreign exchange contracts.

#### (ii) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial instruments that potentially subject the Company to interest rate risk include cash and cash equivalents.

The Company is exposed to interest rate cash flow risk on its cash and cash equivalents as these instruments bear interest based on current market rates.

Trade name	1,074	564	510
Patents	4,126	3,706	420
	<u>\$ 42,766</u>	<u>\$ 16,297</u>	<u>\$ 26,469</u>

In September 2017, the Company announced the execution of a distribution and license agreement with Basilea Pharmaceutica International Ltd. (“Basilea”), for the rights to commercialize Zevtera®/Mabelio® (ceftobiprole medocartil sodium) in 34 European countries and Israel. As consideration for the rights and licenses granted, the Company made a non-refundable payment to Basilea of CHF 5,000 (\$5,200). During the year ended December 31, 2018, the Company accrued \$281 for a milestone payment as the Company assessed that it was probable that a pre-determined level of annual net sales for future years would be achieved. The milestone payment has been recorded in accrued liabilities. Additional non-refundable milestone payments may be due to Basilea upon the Company’s achievement of various milestones. Additional milestone payments may also be due to Basilea based on achievement of pre-determined levels of annual net sales. The license is being amortized over the life of the agreement of 15 years.

As part of the Arrangement (note 1), the Company divested its Canadian business portfolio, which included \$1,349 in licenses, to Cipher. A gain on disposal of this Canadian business portfolio of \$18,489 was recognized in the second quarter of 2018.

Amortization and depreciation expense for the three months year ended March 31, 2019 amounted to \$948 (three months ended March 31, 2018 - \$ 928).

## 10. Leases (continued):

Future annual minimum lease payments as of March 31, 2019 are as follows:

	Operating leases
2019 (excluding the three months ended March 31, 2019)	\$ 682
2020	799
2021	637
2022	434
2023	206
Thereafter	185
Total minimum lease payments	2,943
Less imputed interest	(401)
Total lease liability	\$ 2,542

As at December 31, 2018, future annual minimum lease payments were as follows:

2019	\$ 937
2020	754
2021	347
2022	199
2023	185
Thereafter	170
Total minimum lease payments	\$ 2,592

## 11. Long term debt:

	March 31, 2019	December 31, 2018
Long-term debt, net of unamortized debt issuance costs	\$ 42,315	\$ 41,517
Less: current portion	-	-
Long-term debt, net of unamortized debt issuance costs	\$ 42,315	\$ 41,517

On June 13, 2016, the Company entered into a term loan agreement with CRG-managed funds (“CRG”) for up to \$30,000 consisting of three tranches bearing interest at 14% per annum. The first tranche of \$20,000 was drawn at closing and was used to extinguish long-term debt for general corporate purposes. The second and third tranches of \$5,000 each were never drawn.

On May 11, 2017, the Company amended the terms of its term loan agreement (the “first amendment”). Under the terms of the amended agreement, up to \$50,000 was available to the Company consisting of four tranches bearing interest at 13% per annum. The first tranche of \$20,000 was drawn on June 13, 2016 when the Company entered into the original term loan agreement, and a second tranche of \$10,000 was drawn on the date of the first amendment. A third tranche of \$10,000 was drawn on August 8, 2017. The fourth tranche of up to \$10,000 was never drawn. The loan matures on March 31, 2022 and is secured by substantially all of the assets of the Company. Under the terms of the amended agreement, an interest-only period is provided such that principal repayment begins in June 2020. If certain revenue milestones are met by the Company, the interest-only period may be extended such that there is only one principal payment at maturity.

Interest is payable on a quarterly basis through the full term of the loan. Interest payments may be split, at the Company’s option, between 9% per annum cash interest and 4% per annum paid in-kind interest in the form of additional term loans until March 31, 2020. Subsequent to March 31, 2020, interest shall be payable entirely in cash. If certain revenue milestones are met by the Company, the period in which the Company, at its option, may split its interest payments between 9% per annum cash interest and 4% per annum paid in-kind interest in the form of additional term loans may be extended to March 31, 2022. During the three months ended March 31, 2019, the Company accrued in-kind interest of \$425 (three months ended March 31, 2018 – \$408). The face value of the Company’s long-term debt at March 31, 2019 is \$42,882 (December 31, 2018 - \$42,457). On the maturity date, a back-end facility fee of 8% of the aggregate amount of the term loan will be payable to CRG, including the impact of any amounts accrued as paid in-kind interest. As a result, the Company is accruing the amount up to \$46,312 under the effective interest method which will be the amount payable at maturity. The effective interest rate of the long-term debt is 17%.

---

## 11. Long term debt (continued):

The Company is required to meet certain annual revenue covenants. If the revenue covenants are not met, the Company may exercise a cure right within 90 days of year-end by issuing additional common shares in exchange for cash or by borrowing subordinated debt in an amount equal to two times the difference between the minimum required revenue and the Company's revenue. The cash received from the cure right would be used to repay the principal. On March 27, 2018, the Company entered into an agreement with CRG to amend the terms of the loan to adjust the annual revenue covenants (the "second amendment"). In consideration for the second amendment, the Company issued 800,000 warrants with a strike price of \$2.50 per common share to CRG as of the date of the second amendment. The warrants have a term of 5 years and are classified as equity. The warrants were fair valued at \$936 using the Black-Scholes model and are being accounted for as a discount to the long-term debt on a proportionate basis to the fair value of the entire long-term debt as of the date of the amended agreement. The discount is being amortized to interest expense over the life of the amended agreement under the effective interest method. The Company was in compliance with the amended annual revenue covenants for the years ended December 31, 2018 and 2017.

On March 11, 2019, the Company further amended its term loan agreement with CRG for an additional credit facility of \$10,000, to be drawn at the discretion of the Company, in increments of \$2,500 through September 30, 2019, subject to the achievement of certain revenue and market capitalization requirements. The facility will bear interest at 13% per annum and will carry the same terms and conditions as the term loan agreement. As consideration for this credit facility, the Company made a one-time payment of \$250 to CRG.

## 12. Share capital:

Issued and outstanding:

Common shares	Number of shares
Balance, December 31, 2018	36,233,162
Issued through at-the-market offering <sup>(i)</sup>	2,970,781
Issued through at-the-market offering <sup>(ii)</sup>	625,000
Issued upon exercise of options in cashless transaction	15,654
Issued upon vesting of restricted share units	9,572
Balance, March 31, 2019	39,854,169

- (i) On July 5, 2018, the Company filed a short form base shelf prospectus with the securities regulatory authorities in Canada, other than Quebec, and the United States Securities and Exchange Commission under a registration statement on Form F-10 (together, the “Base Shelf Prospectuses”). The Base Shelf Prospectuses provide for the potential offering in Canada and the United States of up to an aggregate of \$250,000 of the Company’s common shares, preferred shares, debt securities, warrants, subscription receipts and units from time to time over a 25-month period.

On July 10, 2018, the Company filed a prospectus supplement pertaining to sales under an At Market Issuance Sales Agreement (the “ATM Sales Agreement”) with B. Riley FBR, Inc. (“BRFBR”). Under the terms of the ATM Sales Agreement, the Company could sell through at-the-market offerings, with BRFBR as agent, such common shares as would have an aggregate offer price of up to \$30,000, subject to an aggregate maximum of \$13,000 that may be offered and sold under the prospectus supplement. During the three months ended March 31, 2019, the Company sold 2,970,781 common shares for gross proceeds of \$6,347. The ATM Sales Agreement with BRFBR was terminated on March 1, 2019.

- (ii) On March 13, 2019, the Company filed a prospectus supplement pertaining to sales under an ATM Sales Agreement with Cantor Fitzgerald & Co. (“Cantor”). Under the terms of the ATM Sales Agreement, the Company could sell through at-the-market offerings, with Cantor as agent, such common shares as would have an aggregate offer price of up to \$50,000, subject to an aggregate maximum of \$12,000 that may be offered and sold under the prospectus supplement. During the three months ended March 31, 2019, the Company sold 625,000 common shares for gross proceeds of \$2,000. As at March 31, 2019, \$10,000 remains available for issuance under this prospectus supplement.

## 13. Share-based compensation:

### (a) Stock options:

Details of the stock option transactions for the three months ended March 31, 2019 are summarized as follows:

	Number	Weighted average exercise price (CAD\$)	Weighted average remaining contractual life (years)	Aggregate intrinsic value (CAD\$)
Outstanding as at December 31, 2018	3,519,874	5.04	3.07	820
Options granted	1,105,000	5.22		
Options exercised	(62,500)	4.01		
Outstanding as at March 31, 2019	4,562,374	5.08	2.97	1,937
Exercisable as at March 31, 2019	2,914,829	5.34	2.13	1,331

The outstanding options expire at various dates ranging from August 13, 2019 to March 15, 2024. During the three months ended March 31, 2019, 400,000 stock options were conditionally granted and are subject to shareholder approval. If shareholder approval is not obtained, these stock options will be deemed null and void.

## 13. Share-based compensation (continued):

At March 31, 2019, stock options to executive officers and directors, employees and consultants were outstanding as follows:

Range of exercise prices (CAD\$)	Options outstanding			Options exercisable	
	Number	Weighted average remaining contractual life (years)	Weighted average exercise price (CAD\$)	Number	Weighted average exercise price (CAD\$)
\$2.49 to \$3.28	975,000	3.04	2.51	639,566	2.50
\$3.29 to \$4.88	1,222,000	2.56	4.23	1,006,234	4.20
\$4.89 to \$5.69	1,237,500	4.83	5.20	168,358	5.08
\$5.70 to \$12.99	1,127,874	1.32	8.09	1,100,671	8.09
	4,562,374	2.97	5.08	2,914,829	5.34

At March 31, 2019, there was \$2,359 (December 31, 2018 – \$536) of total unrecognized compensation cost related to non-vested stock options. That cost is expected to be recognized over a weighted average period of 1.5 years (December 31, 2018 – 1.1 years).

The aggregate intrinsic value of stock options exercised during the three months ended March 31, 2019 was \$63 (three months ended March 31, 2018 – \$98).

The aggregate fair value of vested options during the three months ended March 31, 2019 was \$826 (three months ended March 31, 2018 – \$293).

For the three months ended March 31, 2019, \$601 was recorded as stock-based compensation expense with \$9 being recorded against liability and \$592 being recorded against additional paid-in capital (three months ended March 31, 2018 – \$323 was recorded as stock-based compensation expense with \$52 being recorded against liability and \$271 being recorded against additional paid-in capital).

The weighted average fair value of stock options granted during the three months ended March 31, 2019 was \$2.12 (three months ended March 31, 2018 – \$0.94). The estimated fair value of the stock options granted was determined using the Black-Scholes option pricing model with the following weighted-average assumptions:

# CORREVIO PHARMA CORP.

(formerly Cardiome Pharma Corp.)

Notes to Interim Consolidated Financial Statements

(In thousands of U.S. dollars except share and per share amounts and where otherwise indicated)

(Unaudited)

As at March 31, 2019 and December 31, 2018 and for the three months ended March 31, 2019 and 2018

## 13. Share-based compensation (continued):

Three months ended March 31	2019	2018
Dividend yield	-	-
Expected volatility	71.0%	61.8%
Risk-free interest rate	2.3%	2.1%
Expected average life of the options	4.0 years	4.0 years
Estimated forfeiture rate	-	-

There is no dividend yield as the Company has not paid, and does not plan to pay, dividends on its common shares. The expected volatility is based on the historical share price volatility of the Company's daily share closing prices over a period equal to the expected life of each option grant. The risk-free interest rate is based on yields from Canadian government bond yields with a term equal to the expected term of the options being valued. The expected life of options represents the period of time that the options are expected to be outstanding based on the contractual term of the options and on historical data of option holder exercise and post-vesting employment termination behaviour. Forfeitures are estimated at the time of grant and, if necessary, management revises that estimate if actual forfeitures differ and adjusts stock-based compensation expense accordingly.

### (b) Restricted share unit plan:

Details of RSU transactions for the three months ended March 31, 2019 are summarized as follows:

	Number	Weighted average grant date fair value (USD\$)	Weighted average remaining contractual life (years)	Aggregate intrinsic value (USD\$)
Outstanding as at December 31, 2018	48,488	\$ 2.63	2.50	\$ 119
RSUs granted	88,751	3.78		336
RSUs vested	(9,572)	2.34		38
RSUs forfeited	(434)	2.39		
Outstanding as at March 31, 2019	127,233	\$ 3.45	2.74	\$ 403

At March 31, 2019, there was \$284 (December 31, 2018 – \$76) of total unrecognized compensation cost related to non-vested RSUs. That cost is expected to be recognized over a weighted average period of 2.8 years (December 31, 2018 – 2.4 years).

---

## 13. Share-based compensation (continued):

RSUs are valued at the market price of the underlying securities on the grant date and the compensation expense, based on the estimated number of awards expected to vest, is recognized on a straight-line basis over the three-year vesting period. For the three months ended March 31, 2019, stock-based compensation expense related to RSUs of \$17 (three months ended March 31, 2018 – \$72) was recorded in selling, general and administration expenses and recorded against additional paid-in capital.

## 14. Contingencies:

- (a) The Company may, from time to time, be subject to claims and legal proceedings brought against it in the normal course of business. Such matters are subject to many uncertainties. Management believes that adequate provisions have been made in the accounts where required and the ultimate resolution of such contingencies will not have a material adverse effect on the consolidated financial position of the Company.
- (b) The Company entered into indemnification agreements with all officers and directors. The maximum potential amount of future payments required under these indemnification agreements is unlimited. However, the Company maintains appropriate liability insurance that limits the exposure and enables the Company to recover any future amounts paid, less any deductible amounts pursuant to the terms of the respective policies, the amounts of which are not considered material.
- (c) The Company has entered into license and research agreements with third parties that include indemnification provisions that are customary in the industry. These indemnification provisions generally require the Company to compensate the other party for certain damages and costs incurred as a result of third party claims or damages arising from these transactions. In some cases, the maximum potential amount of future payments that could be required under these indemnification provisions is unlimited. These indemnification provisions may survive termination of the underlying agreement. The nature of the indemnification obligations prevents the Company from making a reasonable estimate of the maximum potential amount it could be required to pay. Historically, the Company has not made any indemnification payments under such agreements and no amount has been accrued in the accompanying consolidated financial statements with respect to these indemnification obligations.

## 15. Segmented information:

Revenue is earned through the sale of the Company's commercialized products. The Company recognizes segmentation based on geography as follows:

<i>Three months ended March 31, 2019</i>	Europe	Rest of World	Total
Revenue	\$ 5,298	\$ 1,953	\$ 7,251
Cost of goods sold	1,789	452	2,241
Gross margin	3,509	1,501	5,010

<i>Three months ended March 31, 2018</i>	Europe	Rest of World	Total
Revenue	\$ 4,073	\$ 2,470	\$ 6,543
Cost of goods sold	1,510	791	2,301
Gross margin	2,563	1,679	4,242

The following table presents the Company's revenues disaggregated by revenue source:

<i>For the three months ended March 31</i>	2019	2018
Cardiology	\$ 4,677	\$ 5,253
Antibiotic	\$ 2,574	1,290
	\$ 7,251	\$ 6,543

During the three months ended March 31, 2019, two customers individually accounted for more than 10% of total revenue. In 2019, these two customers accounted for 13% and 10% of total revenue. During the three months ended March 31, 2018, two customers individually accounted for more than 10% of total revenue. In 2018, these two customers each accounted for 15% of total revenue.
